

Hellenic Accreditation System

Annex F1/2 to the Certificate No. **1265**

SCOPE of ACCREDITATION

of the
Testing Laboratory

Theodoros Paraskevopoulos (Pack-Lab)

Tested materials/ products	Types of test/ Properties to be measured	Applied standards/ Techniques to be used
Chemical tests		
Materials in contact with food products	1. Overall migration in aqueous food simulant ethanol 10 %, 20 %, 50 %, acetic acid 3 % by total immersion.	EN 1186-3:2022
	2. Overall migration in aqueous food simulant ethanol 10 %, 20 %, 50 %, acetic acid 3 % using a cell.	EN 1186-3:2022
	3. Overall migration in aqueous food simulant ethanol 10 %, 20 %, 50 %, acetic acid 3 % by article filling.	EN 1186-3:2022
	4. Overall migration using simulant E (adsorption by poly (2,6-diphenyl-p-phenylene oxide)- Tenax).	EN 1186-13:2002
	5. Overall migration into substitutes of simulant D2 (Ethanol 95% and Iso-octane) by total immersion, cell and article filling.	EN 1186-3:2022

Tested materials/ products	Types of test/ Properties to be measured	Applied standards/ Techniques to be used
Mechanical tests		
Flexible materials (e.g., plastic, paper)	Determination of the coefficients of friction (CoF)	ISO 8295:2004
Flexible materials (e.g., plastic, paper)	Determination of seal strength	DIN 55529:2005-09

Site of assessment: **Permanent laboratory premises, Platonos 52, 56 224, Thessaloniki, Greece.**

Approved Signatories: **Theodoros Paraskevopoulos**

This scope of Accreditation replaces the previous one dated 13.09.2021.

The Accreditation Certificate No. **1265**, to ELOT EN ISO/IEC 17025:2017, is valid until 12.09.2025.

Athens, 24.02.2023

Christos Nestoras
CEO of ESYD
